Dear Valued Customer

RE: Annual Report Documentation

Enclosed is your *Waste Report Summary* for waste received by Burlington Environmental, Inc., a wholly owned subsidiary of Philip Services Corporation, (PSC), treatment facilities during 2006. PSC has tailored the 2006 Report to follow the reporting requirements of the Washington Department of Ecology (WDOE). Please note that only waste regulated by the State of Washington or Federal government will be listed on this report.

*While reviewing your report, please check the following*

1. The company name is spelled correctly.
2. The address as printed, (including the zip code) is the SITE address where the waste was generated, not the company mailing address.
3. The 12 digit EPA ID# is correct.
4. Manifest numbers are correct.
5. All hazardous waste shipments to PSC are accounted for.
6. Weights are accurate to within 10% of your calculations.

The *Waste Report Summary* is generator site specific, broken down by profile number, and then by manifest number. The receiving facility is named, total weight shipped is shown, and all applicable recycling percentages are given for each waste stream we received. System and form codes have been included in this report. These codes identify your waste and its disposition. Please review these entries for accuracy. The report format should be easy to reference. However, if you need assistance in reviewing this report, please call your Customer Service Representative @ 800-228-7872 and they will be glad to help you.

I would like to take this opportunity to thank you for your continued business. PSC continually strives to be the leader in hazardous waste management.

Sincerely,

Kellie R. Vigil  
General Manager  
Pacific Northwest Region
